

Elenco Pubblicazioni del Dott. Silvio Trivulzio

- 1) Pinelli A. Colombo R. **Trivulzio S.** Berti F. Tofanetti O. Caimi BR. Inhibitory effects of 2-guanidinebenzimidazole and 1-phenylbiguanide on gastric acid secretion in rats. *Arzneimittel-Forschung.* 34: 890-894, 1984.
- 2) Pinelli A. Govoni S. Ossi C. Battaini F. Caimi BR. **Trivulzio S.** Kynurenine may directly interact with GABA receptors in rat brain. *Pharmacology.* 30: 255-258, 1985.
- 3) Zecca L. **Trivulzio S.** Pinelli A. Colombo R. Tofanetti O. Determination of glibenclamide, chlorpropamide and tolbutamide in plasma by high-performance liquid chromatography with ultraviolet detection. *Journal of Chromatography. A.* 339: 203-209, 1985.
- 4) Pinelli A. **Trivulzio S.** von Hoff DD. Warfel LE. Cytotoxic effects and physicochemical properties of marycin: a new hematoporphyrin derivative. *European Journal of Cancer & Clinical Oncology.* 23: 1289-1296, 1987.
- 5) Pinelli A. **Trivulzio S.** Von Hoff DD. Warfel L. Comparison of two methods to evaluate drug-cytotoxicity on tumor cell lines cultured in vitro. *Pharmacological Research Communications.* 19: 913-923, 1987.
- 6) Pinelli A. **Trivulzio S.** Colombo R. Cocchi D. Faravelli R. Caviezel F. Galmozzi G. Cavallaro R. Antiprostatic effect of cimetidine in rats. *Agents and Actions.* 22: 197-201, 1987.
- 7) Pinelli A. **Trivulzio S.** Colombo-Zefinetti G. Tofanetti O. Anti-convulsant effects by reduced glutathione and related aminoacids in rats treated with isoniazid. *Toxicology.* 48: 103-107, 1988.
- 8) **Trivulzio S.** Colombo R. Rossoni G. Caironi E. 5-Aminobenzimidazole inhibits gastric acid secretion in Shay-rats. *Pharmacological Research Communications.* 20: 975-982, 1988.
- 9) **Trivulzio S.** Inhibitory activity of 2-benzimidazolylurea on gastric acid secretion in rats. *Pharmacological Research Communications.* 20: 1035-1046, 1988.
- 10) Pinelli A. **Trivulzio S.** Von Hoff DD. Monti D. Manitto P. Observations on the chemical structure and cytotoxic activity of marycin, a hematoporphyrin derivative. *Cancer Letters.* 38: 257-269, 1988.
- 11) Pinelli A. **Trivulzio S.** Antiprostatic effect associated with zinc depletion in cimetidine-treated rats. *Pharmacological Research Communications.* 20: 329-335, 1988.
- 12) Pinelli A. **Trivulzio S.** Malvezzi L. Rossoni G. Beretta L. 2-substituted derivatives of benzimidazole inhibiting gastric acid secretion in rats. *Arzneimittel-Forschung.* 39: 467-469, 1989.
- 13) Pinelli A. **Trivulzio S.** Malvezzi L. Rossoni G. Berti F. Antisecretory activity of 6-aminoindazole in rats. *Arzneimittel-Forschung.* 39: 361-365, 1989.
- 14) Moresco RM. Govoni S. Battaini F. **Trivulzio S.** Trabucchi M. Omegaconotoxin binding decreases in aged rat brain. *Neurobiology of Aging.* 11: 433-436, 1990.
- 15) Pinelli A. **Trivulzio S.** Malvezzi L. Zecca L. Potentiation of the analgesic effects of tryptophan by allopurinol in rats. *Arzneimittel-Forschung.* 41: 809-811, 1991.

- 16) Pinelli A. **Trivulzio S.** Pojaga G. Rossoni G.
Effects of 2-guanidine-4-methylquinazoline on gastric acid secretion in rats.
Pharmacological Research. 34: 225-230, 1996.
- 17) Pinelli A. **Trivulzio S.** Tomasoni L.
Effects of carbamazepine treatment on pain threshold values and brain serotonin levels in rats.
Pharmacology. 54: 113-117, 1997.
- 18) Pinelli A. **Trivulzio S.** Vignati S.
Effects exerted by otilonium bromide administration on precipitated opioid withdrawal syndrome in rats.
Toxicology. 122: 23-37, 1997.
- 19) Pinelli A. **Trivulzio S.** Ciapponi PM.
Quantitative opioid withdrawal signs in rats: effects exerted by clothiapine administration.
Fundamental & Clinical Pharmacology. 11: 346-355, 1997.
- 20) Pinelli A. **Trivulzio S.** Tomasoni L.
Effects of administration of phentonium bromide on opioid withdrawal syndrome in rats.
Journal of Pharmacy & Pharmacology. 49: 1222-1228, 1997.
- 21) Pinelli A. **Trivulzio S.** Tomasoni L.
Effects of ondansetron administration on opioid withdrawal syndrome observed in rats.
European Journal of Pharmacology. 340: 111-119, 1997.
- Pinelli A. **Trivulzio S.**
22) Quantitative evaluation of opioid withdrawal signs in rats repeatedly treated with morphine and injected with naloxone, in the absence or presence of the antiabstinence agent clonidine.
Journal of Pharmacological & Toxicological Methods. 38: 117-131, 1997.
- 23) Pinelli A. **Trivulzio S.** Spezia R.
Effects of tizanidine administration on precipitated opioid withdrawal signs in rats.
Drug & Alcohol Dependence. 50: 81-88, 1998.
- 24) Pinelli A. **Trivulzio S.** Tomasoni L. Bertolini B. Brenna S. Bonacina E.
Low nitric oxide values associated with low levels of zinc and high levels of cardiac necrosis markers detected in the plasma of rabbits treated with L-NAME.
Journal of Cardiovascular Pharmacology. 37: 310-316, 2001.
- 25) Pinelli A. **Trivulzio S.** Tomasoni L. Bertolini B. Pinelli G.
High dose vitamin E lowers urine porphyrin levels in patients affected by porphyria cutanea tarda.
Pharmacological Research 45: 355-359, 2002.
- 26) Pinelli A. **Trivulzio S.** Tomasoni L. Bertolini B. Brenna S. Bonacina E.
Cardiac necrosis markers associated with low nitric oxide levels in the plasma of rabbits after treatment with vasopressin: protective effects of nitroglycerin administration.
Pharmacological Research. 45: 427-434, 2002.
- 27) Pinelli A. **Trivulzio S.** Tomasoni L. Bertolini B. Brenna S. Bonacina E. Accinni R.
Drugs modifying nitric oxide metabolism affect plasma cholesterol values, coagulation parameters and the appearance of plasma myocardial necrosis markers in rabbits: opposite effects of L-NAME and nitroglycerine.
Cardiovascular Drugs and Therapy. 17: 15-23, 2003.
- 28) Pinelli A, Mussini C, Bertolini B, Buratti M, **Trivulzio S.**
Increased excretion of urine coproporphyrins during daunorubicin administration in patients affected by acute myelogenous leucemia.
Pharmacological Research 48: 515-518, 2003.
- 29) Pinelli A. **Trivulzio S.** Tomasoni L. Brenna S. Bonacina E. Accinni R.
Isoproterenol-induced myocardial infarction in rabbits. Protection by propranolol or labetalol: a proposed non-invasive procedure.
European Journal of Pharmaceutical Sciences. 23:277-85, 2004.

- 30) Pinelli A. **Trivulzio S.** Tomasoni L. Bertolini B. Brenna S. Bonacina E. Vignati S. Myocardial infarction non-invasively induced in rabbits by administering isoproterenol and vasopressin: protective effects exerted by verapamil. *Fundamental & Clinical Pharmacology*. 18:657-67, 2004.
- 31) Pinelli A. Mussini C. Buratti M. Parmiggiani-Venezia M. **Trivulzio S.** Increased urinary coproporphyrin excretion observed in patients with differently staged Hodgkin's disease treated with chemotherapy. *Pharmacological Research*. 51(3):283-8, 2005.
- 32) Pinelli A. Cighetti G. **Trivulzio S.** Plasma malondialdehyde levels and opiate withdrawal signs observed in rats treated with morphine plus naloxone: effects of alpha-lipoic acid administration. *Fundamental & Clinical Pharmacology*. 22:439-45, 2008.
- 33) Pinelli A. Cighetti G. **Trivulzio S.** Accinni R. Morphine or its withdrawal affects plasma malondialdehyde, vitamin E levels and absence or presence of abstinence signs in rats. *Journal of Pharmacy & Pharmacology*. 61:487-91, 2009.
- 34) Pinelli A. Cighetti G. **Trivulzio S.** Effects of alpha-lipoic acid administration on plasma glucose levels, total malondialdehyde values and withdrawal signs in rats treated with morphine or morphine plus naloxone. *Arzneimittelforschung*. 59:72-8, 2009.
- 35) Pinelli A, **Trivulzio S**, Brenna S, Rossoni G. Plasma cardiac necrosis markers C-troponin I and creatine kinase, associated with increased malondialdehyde levels, induced in rabbits by means of 5-aminolevulinic acid injection. *Pharmacology*. 84: 314-21, 2009; doi: 10.1159/000248216. Epub 2009.
- 36) Pinelli A, **Trivulzio S**, Brenna S, Galmozzi G, Rossoni G. Pretreatment with tetrandrine has protective effects against isoproterenol-induced myocardial infarction in rabbits. *In Vivo*. 24:265-70, 2010.
- 37) Rossoni G, Manfredi B, Tazzari V, Sparatore A, **Trivulzio S**, Del Soldato P, Berti F. Activity of a new hydrogen sulfide-releasing aspirin (ACS14) on pathological cardiovascular alterations induced by glutathione depletion in rats. *European Journal of Pharmacology*. 648:139-45.2010, doi: 10.1016/j.ejphar.2010.08.039.
- 38) Pinelli A, **Trivulzio S**, Rossoni G, Redaelli R, Brenna S. Factors involved in sudden coagulation observed in patients with acute myocardial infarction. *In Vivo*. 26:1021-5, 2012
- 39) Pinelli A, **Trivulzio S**, Brenna S, Rosato V, Rivoltini L, Rossoni G. Identification of Factors Causing Sudden Coagulation in Patients with Acute Myocardial Infarction. *Journal of Clinical & Experimental Cardiology*. 2012, 3:7
- 40) Sangiovanni E, Vrhovsek U, Rossoni G, Colombo E, Brunelli C, Brembati L, **Trivulzio S**, Gasperotti M, Mattivi F, Bosisio E, Dell'Agli M. Ellagitannins from Rubus berries for the control of gastric inflammation: in vitro and in vivo studies. *PLoS One*. 8: e71762. doi: 10.1371/journal.pone.0071762, 2013
- 41) Pinelli A, **Trivulzio S**, Rossoni G. Activated partial thromboplastin time correlates with methoxyhydroxyphenylglycol in acute myocardial infarction patients: therapeutic implications for patients at cardiovascular risk. *In Vivo*. 28:99-104, 2014
